Professional Experience

Adjunct Instructor, 2015-2018 NCBM0301 and NCBM0302

The duties were to work one-on-one with students to ensure understanding of all given topics. Classes grew from a half term support course to a full term support model and added the NCMB0302 course.

Math Lab Instructor, 2019-2020 DMTH0300, NCBM0301 and NCBM0302

The duties were to oversee all one-on-one math lab work with students to ensure understanding of all given topics.

Math Support, 2020-2023, NCBM0102, NCBM0314, and supporting all math related classes

The duties were to oversee all one-on-one math lab work with all students to ensure understanding of all given topics.

Research Interests

The disconnect between mathematically attuned brains and other brains, and how it affects learning

Current Research

Visualizing Mathematics – explaining complex ideas through carefully planned visuals

Teaching Experience

DMTH0300, NCBM0301, NCBM0302, NCBM0314
